**Exmaner's Amendment and Reasons for Allowance**

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 4, before the first line, the following has been added:

**Brief Description of the Drawings**

Figure 1 shows a diagrammatic, partially sectional illustration of an embodiment of the invention.

Figure 2 shows a further exemplary embodiment of the invention.

This amendment was made because applicant's specification as filed did not include a brief description of the drawings.

### **Reasons for Allowance**

The patents to Albrecht (2,749,528), Kestner et al. (3,493,718), and Wagatsuma (4,458,136) are cited to show prior art methods for connecting conductors in an electric lamp using an arc discharge.

The following is an examiner's statement of reasons for allowance: none of the prior art of record teaches or suggests the particular method claimed by applicant wherein an additional wire is used in the manner set forth in claim 1 to close off an aperture in combination with the other steps of claim 1. The other claims are allowable over the prior art of record at least because they depend from claim 1.

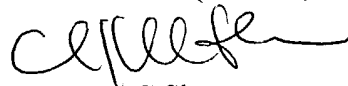

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
